

# Greenshop Solar PV Self Survey Form

## Considerations

The proposed area should:

*be shade free for at least twelve hours a day at mid-summer  
be ideally south facing, or between south east or south west  
with an inclination of 30 to 40 degrees*

1	Mr/Mrs/Ms	
2	First Name	
3	Last Name	
4	Full Postal Address	
5	Post Code	
6	Email Address	
7	Day time Tel.	
8	Mobile Tel.	
9	Site Address (if different)	
10	Commercial or Domestic	

*The following four questions are requirements of the Low Carbon Building Programme.*

11	Is there a minimum of 270mm of loft insulation at the property?	
12	Where there are cavity walls, are they insulated?	
13	Are low energy light bulbs installed in the main rooms of the property?	
14	Does your heating system have basic controls eg. room thermostats/ timer?	

15	Is the proposed system for a new build or existing property?	
16	Is the proposed system to be placed on: The Ground/Flat Roof /Pitched Roof	
17	If on the ground, what is the distance from the house?	
18	If on a pitched roof, what is the approximate angle of the pitch?	
19	What is the condition of the roof?	
20	Will the system face South/ South East/ South West?	
21	Will the system be shaded at any part of the day?	
22	What is the available space for the PV system?	
23	Are there any obstructions on the roof?	
24	Is there good access to the proposed site?	
25	What is the height to the eaves of the roof?	
26	Is there parking adjacent to the house?	
27	Is the property Detached/ Terraced/ Semi-detached?	
28	Could you tell us how many kWh's (units of electricity) you use annually?	

Please return with some photographs of the proposed site and sketches of any obstacles or potential problems to the address below:
